# The Revenue Nucleus

2026 Revenue Orchestration Initiative

Company | August 2025

Through its convergence strategy, Company has assembled traditionally-siloed employee benefits under a single provider, offering holistic customer value and a lasting competitive advantage

Why pursue a strategy of convergence:

Offer superior customer value

Unlock cross-selling revenue streams

Offer holistic solutions to customers

John Doe, Co-Founder & Chief Growth Officer

In a space where acquisitions are such a significant part of our ability to diversify and scale, our crystal-clear vision is what keeps us looking beyond the bottom line at what really matters: how does this specific firm help round out our integrated solution set for clients and support the build in a geography that needs it?

while the first half was about laying the foundation and identifying the best path forward, the second half is about finding the right teams, tying everything together, and building an integrated, disruptive offering.

Transformation strategies, particularly those involving product line expansion and M&A activity, **risk missing out on their potential** if the tech stack doesn't evolve

- Complex tech stacks
- Inefficient workflows
- Inconsistent processes
- Management visibility limitations

In order to capture the value of convergence and achieve the targeted 20% improvement to sales effectiveness, Company needs a **revenue nucleus** to drive similar convergence in tech

THE GOAL:	Offer superior customer value	Unlock cross-selling revenue streams	Offer holistic solutions to customers
THE ISSUE:	<ul style="list-style-type: none"><li>Despite a strong internal culture, Company faces a "customer perception gap," with lower scores in customer service compared to its competitors</li></ul>	<ul style="list-style-type: none"><li>Cross-selling across Company's widening solution set is slower than it could be</li></ul>	<ul style="list-style-type: none"><li>A large portion of new customer acquisitions are still limited to a narrow product set</li></ul>
THE CAUSE:	<ul style="list-style-type: none"><li>Inconsistent customer lifecycle management processes</li><li>Lack of visibility into client engagement or risk</li></ul>	<ul style="list-style-type: none"><li>Reactive customer management processes</li><li>Missing visibility and collaboration on potential cross-sell accounts</li><li>Leads falling through the cracks</li></ul>	<ul style="list-style-type: none"><li>Missing identification and sharing of best practices needed to shift the culture towards consultative selling</li><li>Manual, disconnected workflows resulting in inconsistent process and lack of GTM measurability</li></ul>
THE RESULT:	REVENUE RETENTION ↓	CUSTOMER GROWTH ↓	AVERAGE DEAL SIZE ↓

# Our platform will act as Company's revenue nucleus, providing process support, informing GTM insight, and activating buyer intelligence

Week 1 - 4

## Phase 1

Capacity and consistency

- Unify GTM tools under a system of action
- Remove manual burdens to improve productive capacity
- Structure consistent and measurable account engagement frameworks
- Enhance Leadership's insight into seller and GTM performance

- Automation
- Cadences
- Agentic prospecting
- Coaching & Analytics

↑ Customer lifecycle consistency

↑ Customer proactivity

↑ Selling process consistency

Month 2 - 6

## Phase 2

Insight and collaboration

- Refine account engagement frameworks for further effectiveness
- Analyze the voice of the customer for collaboration and coaching
- Access detailed account histories across selling teams for improved collaboration

- Coaching & Analytics
- Conversation intelligence
- AI-activated account histories

↑ Voice of the customer insights

↑ Cross-sell visibility

↑ Best practices & coaching

Month 6+

## Phase 3

Prioritization and upskilling

- Prioritize seller workflows based on signals from the tech stack
- Provide buyers with tailored web experiences that drive engagement
- Incorporate custom data signals into intelligent, prioritized workflows

- Rhythm
- Drift

↑ Customer risk prevention

↑ Cross-sell prioritization

↑ Pipeline growth and progression

By implementing our platform, Company will achieve the necessary 20% improvement to sales effectiveness, improving revenue retention, growing accounts, and selling larger deals

THE GOAL:	Offer superior customer value	Unlock cross-selling revenue streams	Offer holistic solutions to customers
THE SOLUTION:	<ul style="list-style-type: none"><li>Maximize the advantages of a class-leading portfolio by pairing with exemplary customer service</li></ul>	<ul style="list-style-type: none"><li>Accelerate cross-selling and account growth</li></ul>	<ul style="list-style-type: none"><li>Upskill the selling force to sell larger, stickier, more strategic deals</li></ul>
THE DRIVER:	<ul style="list-style-type: none"><li>Consistent, proactive customer lifecycle management</li><li>Full visibility and activation of customer engagement and risk signals</li></ul>	<ul style="list-style-type: none"><li>Proactive customer management processes</li><li>Full visibility and improved collaboration across selling teams</li><li>Lead persistence for pipeline maximization</li></ul>	<ul style="list-style-type: none"><li>Improved identification of and coaching on best practices, shifting the culture to selling more products through consultative, strategic cycles</li><li>Process consistency and lack detailed GTM measurability</li></ul>
THE RESULT:	REVENUE RETENTION 	CUSTOMER GROWTH 	AVERAGE DEAL SIZE
