

TATA TECHNOLOGIES

Salesloft.

Point of View

February 2025

Tata Technologies is evolving its GTM strategy to **exceed last year's 2% revenue growth** and drive net profit improvement

○ Increase the proportion of strategic, solutions business

While continuing to operate as a reseller, grow the ratio of strategic deals by augmenting offerings with services, consulting, education, training, and implementation.

○ Expand and Diversify Customer Base

Increase market penetration by targeting new customer verticals, expanding within high-growth industries, and improving sales structure to drive net-new acquisition.

○ Inform the Tata Business Excellence Model (TBEM)

Build a high-performance sales organization through better visibility, data-driven decision-making, and structured enablement.

○ Strengthen Retention & Service Delivery

Drive stronger customer relationships through structured engagement frameworks, improved service delivery, and retention strategies.

By partnering with Salesloft, Tata Technologies will enable the capabilities needed to generate **\$20M in incremental business benefit** over three years

Strategic priorities

Increase the proportion of strategic, solutions business

While continuing to operate as a reseller, grow the ratio of strategic deals by augmenting offerings with services, consulting, education, training, and implementation.

Expand and Diversify Customer Base

Increase market penetration by targeting new customer verticals, expanding within high-growth industries, and improving sales structure to drive net-new acquisition.

Inform the Tata Business Excellence Model (TBEM)

Build a high-performance sales organization through better visibility, data-driven decision-making, and structured enablement.

Strengthen Retention & Service Delivery

Drive stronger customer relationships through structured engagement frameworks, improved service delivery, and retention strategies.
